# CSC SNAPSHOT

**COST | SECURITY | COMPLIANCE**

CSC Snapshot is a great way to quickly identify issues with your AWS account in the areas of **cost, security, and compliance**. We deliver a published report that highlights the issues and provides your team with insights for remediation.

The goal is to ensure a healthy Cloud environment, resolve deficiencies before they become issues, and educate your team on continuous Cloud hygiene. As a trusted advisor, we will discuss the findings with you and how we can help.

All for a one-time charge of \$99
